THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE** OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

# **PART B - FEE(S) TRANSMITTAL**

**Complete and send this form, together with applicable fee(s), to: Mail**

**Mail Stop ISSUE FEE

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 918 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 918 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

## Privacy Act Statement

**The Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

***Examiner's Amendment***

6. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Jong Lee (Reg. No. 36,197) on June 28, 2011.

The application has been amended as follows:

**AMENDMENTS TO THE CLAIMS**

In the "Amendments to the Claims" (received on 10/18/2010), please amend Claims 17, 18, and 30 as follows:

17. (Currently Amended) A method for remote programming of a device configured to be program-controlled, comprising:

remotely transmitting program data from a control station via a long-distance connection to an interface connected to the device, wherein the program data include one or more check sums calculated from the program data;

buffering the program data at the interface;

checking the integrity of the program data by using the one or more check sums;

if the program data is determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forming forms a security code associated with the device;

assigning a validity period to the legitimization;

forwarding the legitimization, unbuffered, to the device upon receiving the legitimization at the interface;

checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization; and

if the legitimization is determined to be valid, entering the program data ~~[[in]]~~ into a memory of the device.

18. (Currently Amended) A method for remote programming of a device configured to be program-controlled, comprising:

remotely transmitting program data from a control station via a long-distance connection to an interface connected to the device, wherein the program data include one or more check sums calculated from the program data;

buffering the program data at the interface;

checking the integrity of the program data by using the one or more check sums;

if the program data is determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forms a security code associated with the device;

buffering the legitimization at the interface by storing the legitimization together with the program data;

assigning a validity period to the legitimization;

after the buffering of the legitimization, forwarding the legitimization to the device;

checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization; and

if the legitimization is determined to be valid, entering the program data [[in]] into a memory of the device.

30. (Currently Amended) A system for remote programming of a device, comprising:

an interface configured to receive program data and a legitimization from a control station, wherein the program data include one or more check sums calculated from the program data; and

the device is configured to be remotely programmed and program-controlled, wherein the device includes a processor and a program memory, wherein the device is operatively connected to the interface, [[and]] wherein the legitimization forms a security code associated with the device, wherein the legitimization is assigned a validity period, and wherein the device is further configured to check the validity period of the legitimization;

wherein the interface is further configured to:

buffer the received program data;

check the integrity of the received program data by using the one or more check sums;

receive the legitimization from the control station if the received program data is determined to be free of errors;

forward the received legitimization to the device without buffering, upon receiving the legitimization; and

transmit the buffered program data to the device after a positive determination of validity of the received legitimization by the device.

-- END OF AMENDMENT --

#### ***Reasons for Allowance***

7. The following is an Examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, "checking the integrity of the program data by using the one or more

check sums; if the program data is determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forms a security code associated with the device; assigning a validity period to the legitimization; forwarding the legitimization, unbuffered, to the device upon receiving the legitimization at the interface; checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization” as recited in independent Claim 17; and further fail to teach, in combination with the other claimed limitations, similarly-worded limitations as recited in independent Claim 30; and further fail to teach, in combination with the other claimed limitations, “checking the integrity of the program data by using the one or more check sums; if the program data is determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forms a security code associated with the device; buffering the legitimization at the interface by storing the legitimization together with the program data; assigning a validity period to the legitimization; after the buffering of the legitimization, forwarding the legitimization to the device; checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization” as recited in independent Claim 18.

The closest cited prior art, the combination of US 2002/0019877 (hereinafter “Wrede”), US 2002/0035429 (hereinafter “Banas”), and US 2002/0129043 (hereinafter “Nakada”), teaches loading or updating programs, between a data processing unit on the provider side, particularly a server, and a data processing unit on the user side, particularly a programmable control unit in a motor vehicle. However, the combination of Wrede, Banas, and Nakada fails to teach “checking the integrity of the program data by using the one or more check sums; if the program data is

determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forms a security code associated with the device; assigning a validity period to the legitimization; forwarding the legitimization, unbuffered, to the device upon receiving the legitimization at the interface; checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization” as recited in independent Claim 17; and further fails to teach similarly-worded limitations as recited in independent Claim 30; and further fails to teach “checking the integrity of the program data by using the one or more check sums; if the program data is determined to be free of errors, remotely transmitting a legitimization from the control station to the interface, wherein the legitimization forms a security code associated with the device; buffering the legitimization at the interface by storing the legitimization together with the program data; assigning a validity period to the legitimization; after the buffering of the legitimization, forwarding the legitimization to the device; checking, by the device, the legitimization for validity, wherein the checking includes checking of the validity period of the legitimization” as recited in independent Claim 18.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
